

## Downloading Pictures from Flickr

How to download pictures from Flickr:

- While viewing one of the slideshows, click on the Flickr icon in the top left corner. This will take you to a screen with thumbnails of the pictures in that slideshow. Or at the end of the slideshow, click on the name of the slideshow and that will also take you to the screen with the thumbnails.
- Click on the picture you wish to download.
- Above the picture, on the pull down menu under Actions, choose view all sizes.
- Choose the size you wish to download: small, medium, large, original, etc.
- Click the Download the ...size of this photo.
- Choose Save, then choose the location where you want to save the photo, click save and the photo will download to your computer.
